

# GRIP ROCK

Versatile commercial catering matting that rocks!

Grip Rock's unique combination of textured ceramic beads and crushed garnets gives a surface of incredible slip resistance - even in conditions where water, oil and grease may be spilled. Not only that, it's durable, easy to clean and move. In fact it's perfect for all commercial catering needs. Despite being only 3mm thick it has three layers, the tough grippy rock surface is backed by a fibreglass middle layer for strength and polyurethane backing to provide grip to most floor surfaces.

This is an important development in kitchen safety where slips and trips cause 75% of all reported serious injuries.

◆ Unique 'rock' surface

◆ High slip-resistance even in water, grease and oil

◆ Extremely tough and durable

◆ Lightweight and thin

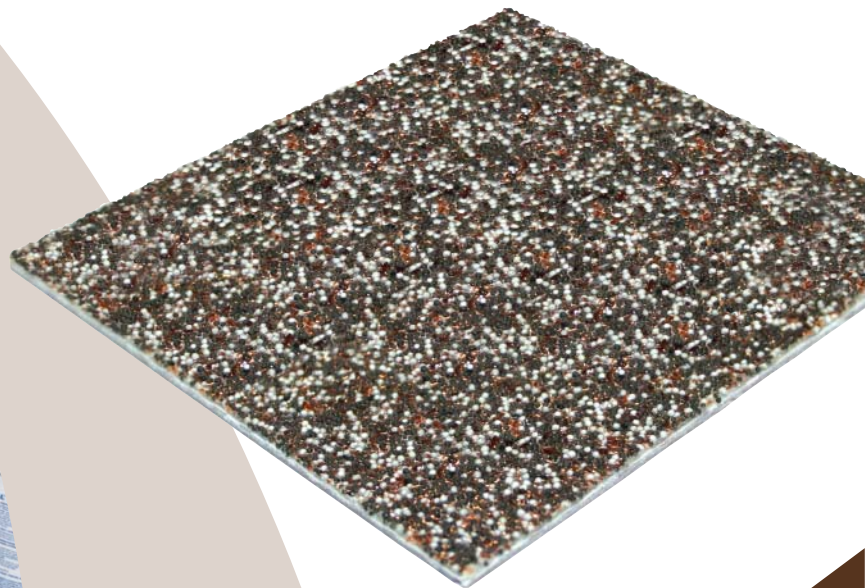

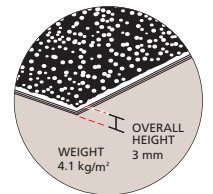

◆ Simple to install

◆ Easy to handle, clean and maintain

THE MAIN BENEFITS

PRODUCT	HEIGHT	SIZE OPTIONS
Grip Rock module	3mm	91cm x 152cm
Grip Rock roll	3mm	12m length x 91cm

Product Code GPR
