

Extra slip-resistant entrance matting perfect for high traffic exterior and interior areas.

Gateway XT is a heavy-duty entrance mat designed to combat substantial amounts of dirt and large debris.

Its deep-etched tread scrapes shoes and wheels clean, while the open grid traps and collects the debris, preventing it from coming inside. This extra slip resistant mat is ideal for walkways like hardwood decking and bridges that tend to get slippery in wet weather. You can use Gateway XT inside and outside, or combine with entrance matting specifically designed for high traffic inside areas, like Gateway Plus.
